## Alliance - COVID-19 Updates and Resources Available Online 24/7

In an effort to mitigate the impact of COVID-19 on patients, their oncology health care providers, and institutional healthcare-related staff, Alliance has worked with the NCI and NCI CIRB to produce protocol-specific, minor deviation guidance documents, along with other resources, including the Alliance COVID-19 Reporting Database. Visit the home page of the Alliance member website to access these helpful tools.

---

## Who We Are

### Defining, Understanding All Four Alliance Entities

The Alliance for Clinical Trials in Oncology is a multi-institutional research consortium that conducts high-impact multidisciplinary cancer control, prevention, and treatment trials. To facilitate its mission to reduce the impact of cancer, the Alliance family encompasses four distinct entities: Alliance for Clinical Trials in Oncology Foundation, Alliance Foundation Trials, LLC, Alliance NCTN Foundation, and Alliance Data Innovation Lab, LLC.
